

ARTS140W : Drawing with Color

In Drawing with Color, students learn the elements and principles of art and design using color. A hands-on approach, the course exposes students to the science and psychology of color and to the way these notions relate to drawing and art. Instruction guides students through experiential learning in the mediums of color pencil, oil pastel, and chalk pastel. It likewise introduces creative strategies to address difficulties and solve problems, guiding learners through a series of creative projects reflective of the artist's four roles in society.
